ADMINISTRATION

In the house  
the people  
sat. They  
loved and in  
turn were  
loved. They  
communicated,  
just as we  
have done  
here.

We love you  
both.

SENIORS

I'm growing up, my mother says--  
Today she said I'd grown;  
The reason why is this; Now I  
Can do things all alone.

And though I'm glad that I don't need  
Someone to brush my hair  
And wash my hands and face and button  
Buttons everywhere

Although I'm very glad indeed  
To help myself instead,  
I hope that I won't have to try  
TO TUCK MYSELF IN BED.

Midori Arakawa

We shall never cease from exploration,  
and the end of all our own exploring  
will be to arrive where we started  
and know the place for the first time.

Lisa Bean

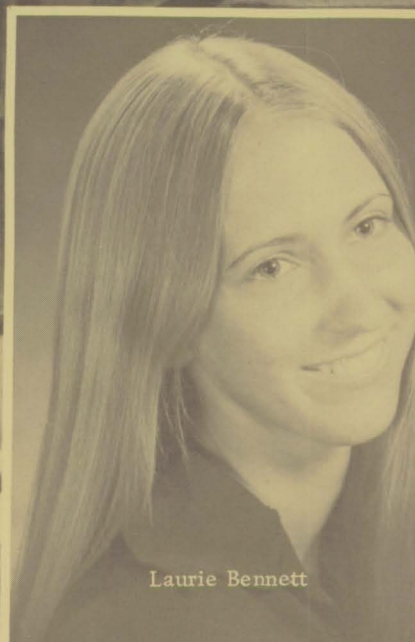

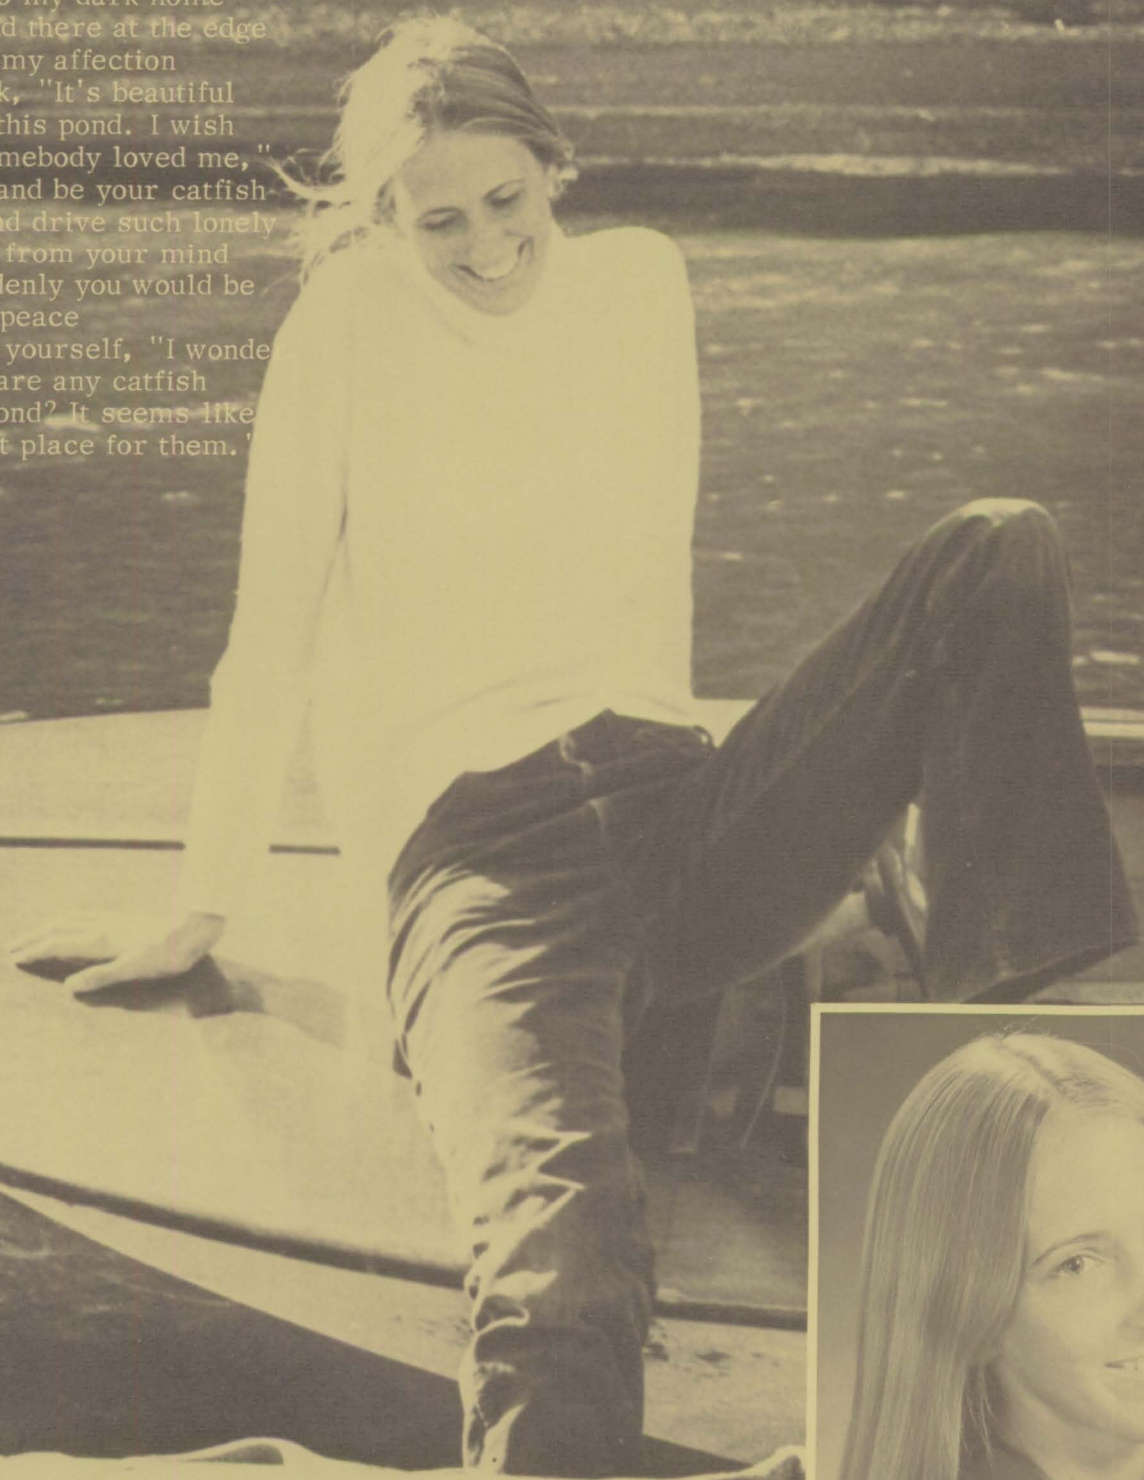

if i were to live my life  
in Catfish forms  
in Scaffolds of skin and whiskers  
at the bottom of a pond  
And you were to come by  
one evening

When the moon was shining  
down into my dark home  
And stand there at the edge  
of my affection

And think, "It's beautiful  
here by this pond. I wish  
Somebody loved me,"  
I'd love and be your catfish-  
friend and drive such lonely  
thoughts from your mind  
And Suddenly you would be  
at peace

And Ask yourself, "I wonder  
if there are any catfish  
in this pond? It seems like  
A perfect place for them."

Laurie Bennett

"Change what you can,  
accept what you must, and  
be gentle with yourself in all of it."

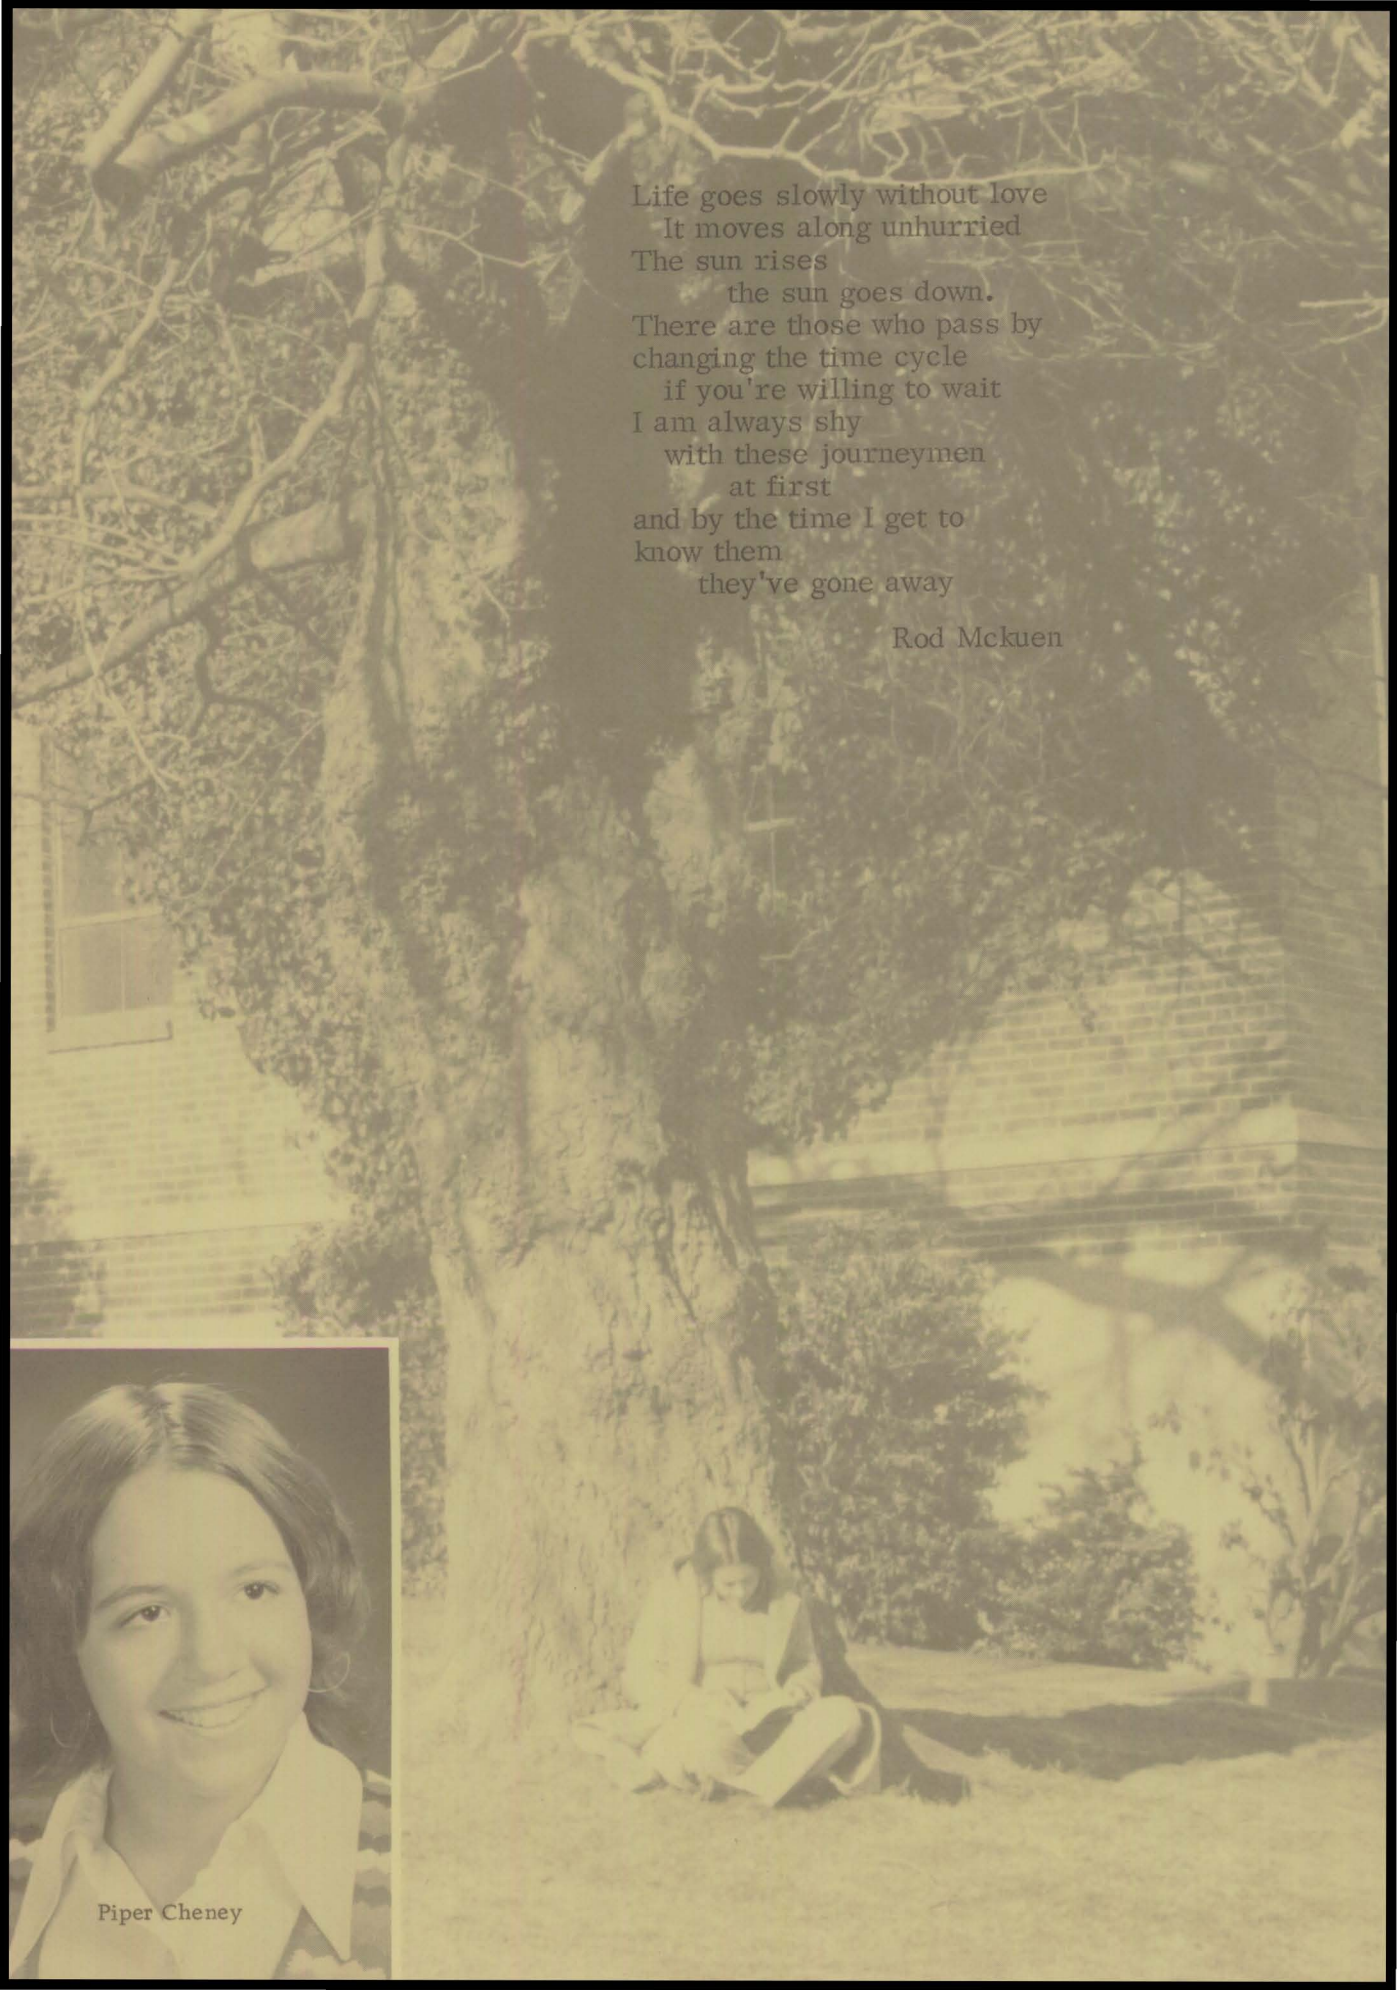

I wish I could say what I feel

Alice Chan

Life goes slowly without love  
It moves along unhurried  
The sun rises  
the sun goes down.  
There are those who pass by  
changing the time cycle  
if you're willing to wait  
I am always shy  
with these journeymen  
at first  
and by the time I get to  
know them  
they've gone away

Where are you going? I don't quite know.  
Down to the stream where the king-cups grow--  
Up on the hill where the pine trees blow--  
Anywhere, anywhere. I don't know.

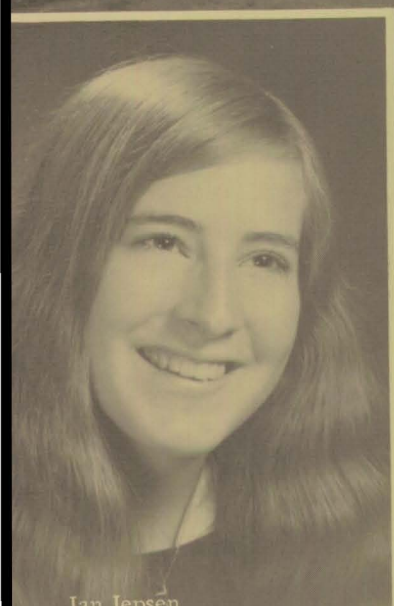

It's only the  
giving that  
makes you what  
you are

Diana Dowsley

People so seldom say I  
Love you...and then it's  
either too late...or love  
goes...So when I tell you  
I love you...it doesn't  
mean I know you'll never  
go, only that I wish  
you didn't have to

Lawrence - Craig - Green

I am only a face in a million others, my friend is only a face in a million others too. But in our friendship we lose our anonymity. To each other we are unique. We are friends not because we always share the same views, do the same things or lead the same kind of lives. Friendship does not mean that we become one instead of two—that would just be another form of anonymity. We are friends because we can understand each other, talk to each other and even disagree with each other. My friend is a complement to me and I to him.

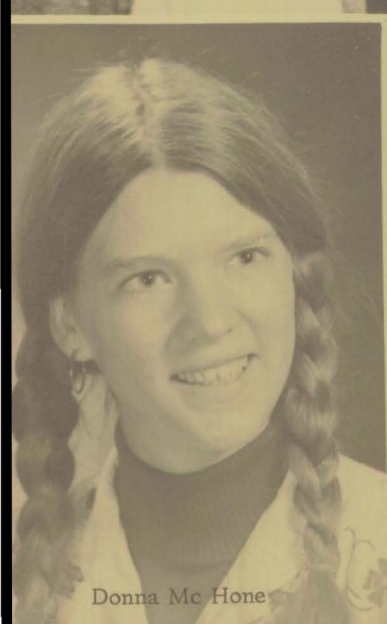

Soheila Ladbon

All alone the captain stands.  
He hasn't heard from his deck hands,  
The gambler tips his hat and walks  
Toward the door. It's the second half  
Of the cruise. And you know  
He hates to lose.

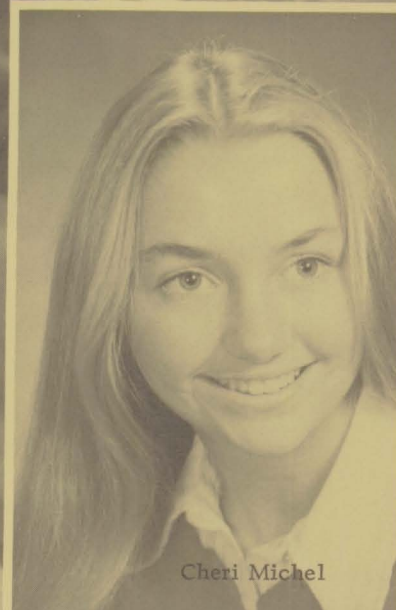

Hey Hey Crippled Creek Ferry  
Butting through the overhanging trees  
Make way for the Crippled Creek Ferry  
The water's going down. It's a mighty tight squeeze

Donna Mc Hone

One day as I sat musing  
alone and melancholy and without a friend  
there came a voice out of the gloom  
saying, "Cheer up! things might be worse"  
so I cheered up  
and sure enough,  
things got worse

It is my fervent hope  
that my whole life on this earth  
will ever be...

...tears and laughter  
...tears that purify my heart  
and reveal to me  
...the secret of life...and its mystery...  
...laughter that brings me  
closer

to my fellow men  
...tears with which I join  
the broken hearted...  
...laughter that symbolizes joy  
over my very existence.

"In my family everyone is born in the air, with his head at exactly the height it's going to be when he's an adult and then we all grow toward the ground."

"Does everyone here grow the way you do?" asked Milo.

"Almost everyone," replied Alec, and then he stopped a moment and thought. "Now and then, though, someone does begin to grow differently. Instead of down, his feet grow up toward the sky. But we do our best to discourage awkward things like that."

"What happens to them?" insisted Milo.

"Oddly enough they often grow ten times the size of everyone else," said Alec thoughtfully. "And I've heard that they walk among the stars."

THE ELUSIVE A.W.S. JOCKS

STUDENT LIFE

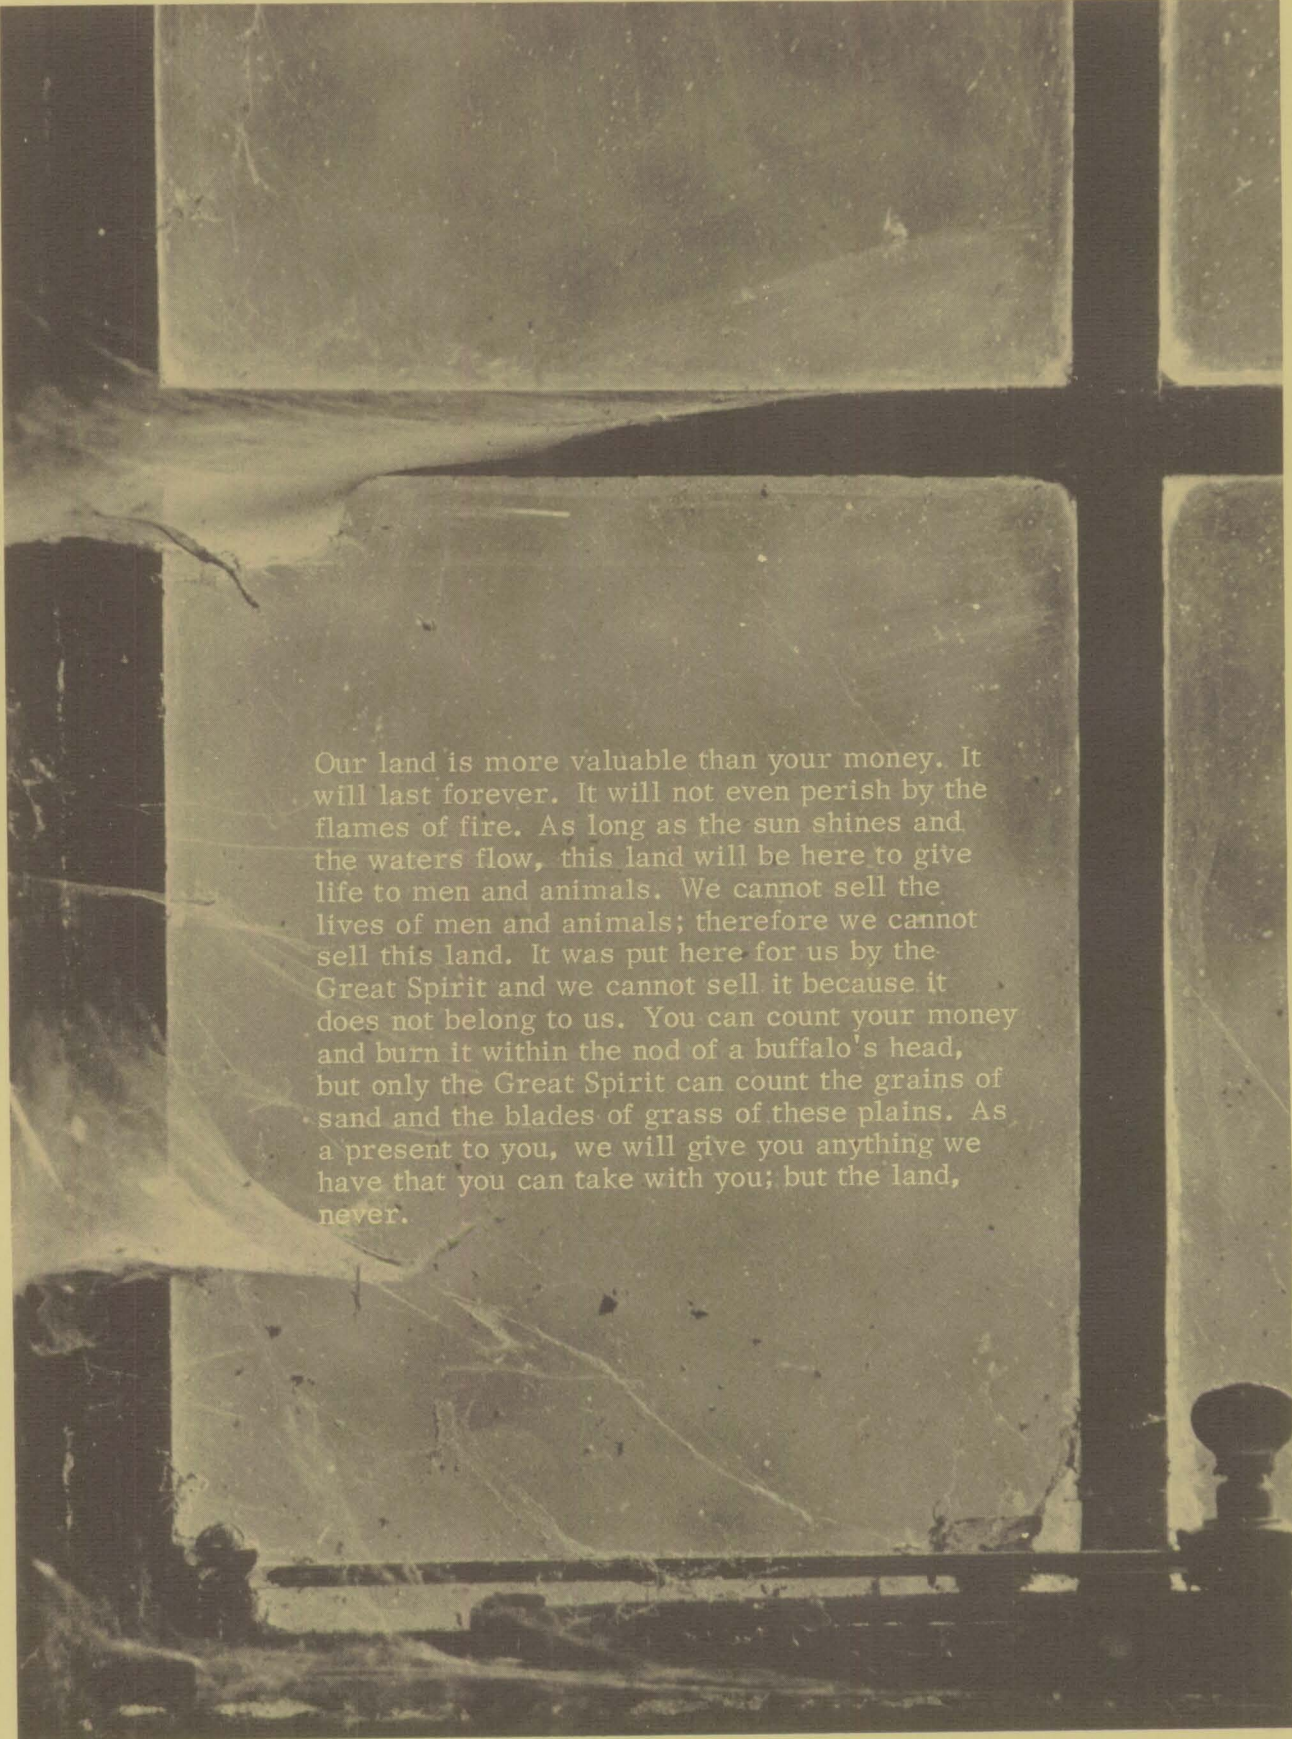

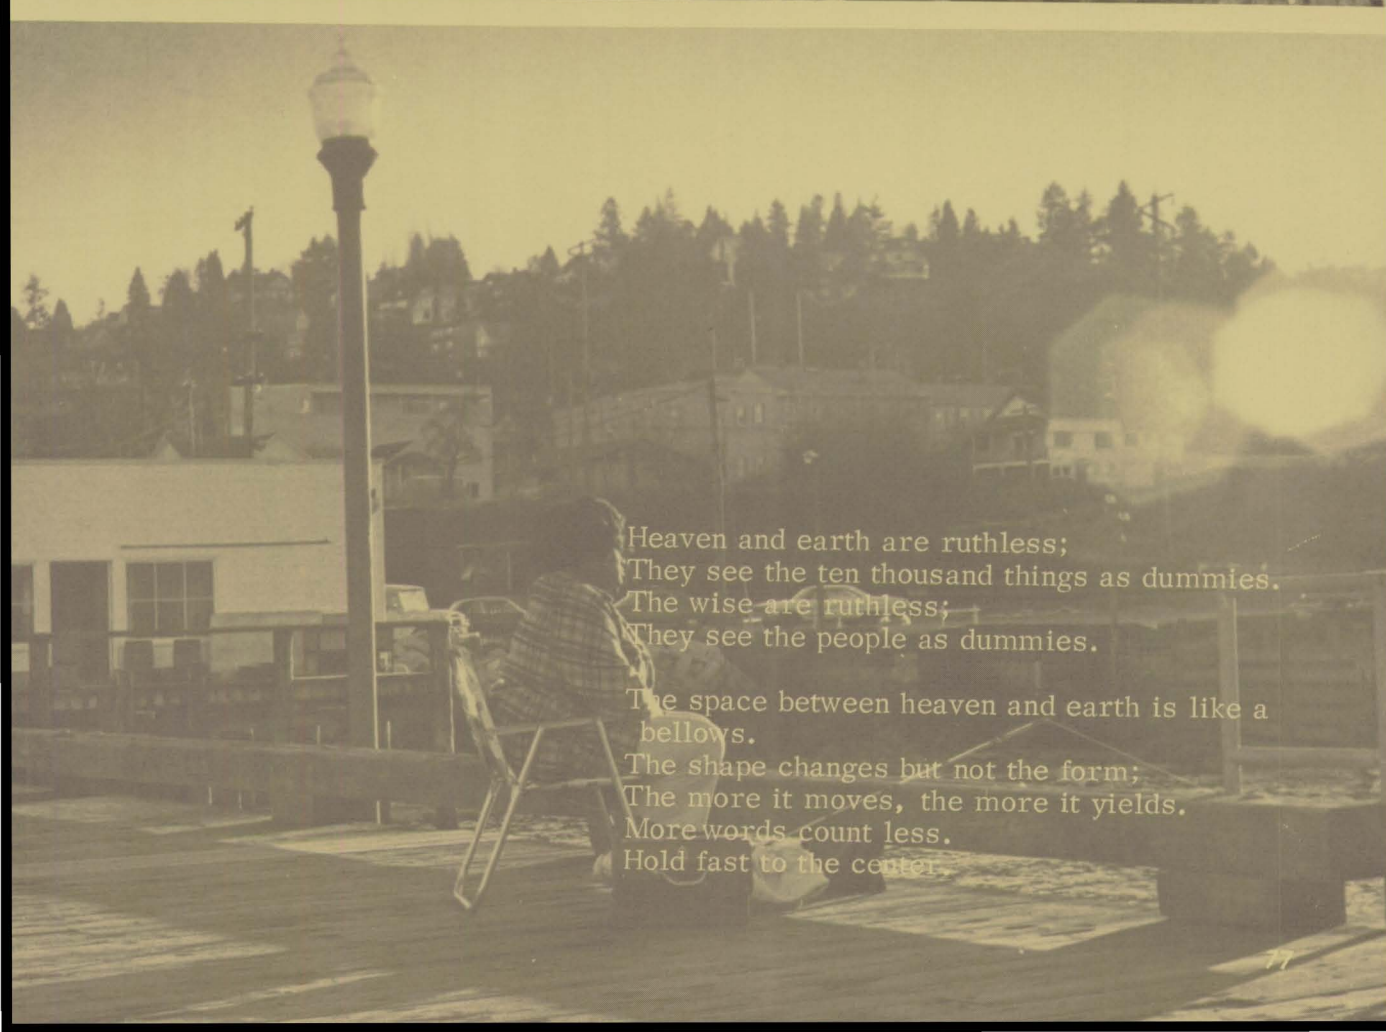

Our land is more valuable than your money. It will last forever. It will not even perish by the flames of fire. As long as the sun shines and the waters flow, this land will be here to give life to men and animals. We cannot sell the lives of men and animals; therefore we cannot sell this land. It was put here for us by the Great Spirit and we cannot sell it because it does not belong to us. You can count your money and burn it within the nod of a buffalo's head, but only the Great Spirit can count the grains of sand and the blades of grass of these plains. As a present to you, we will give you anything we have that you can take with you; but the land, never.

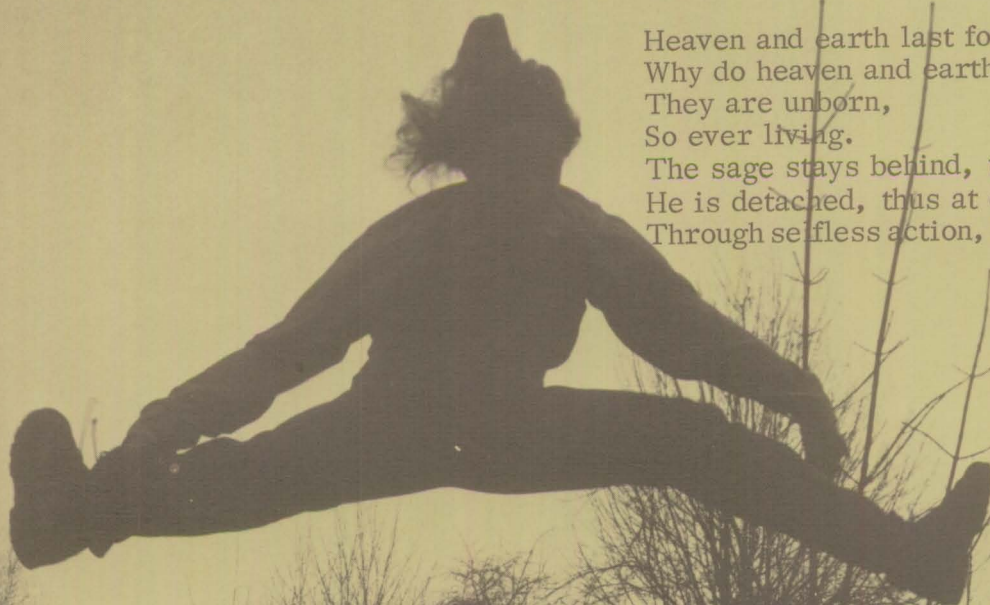

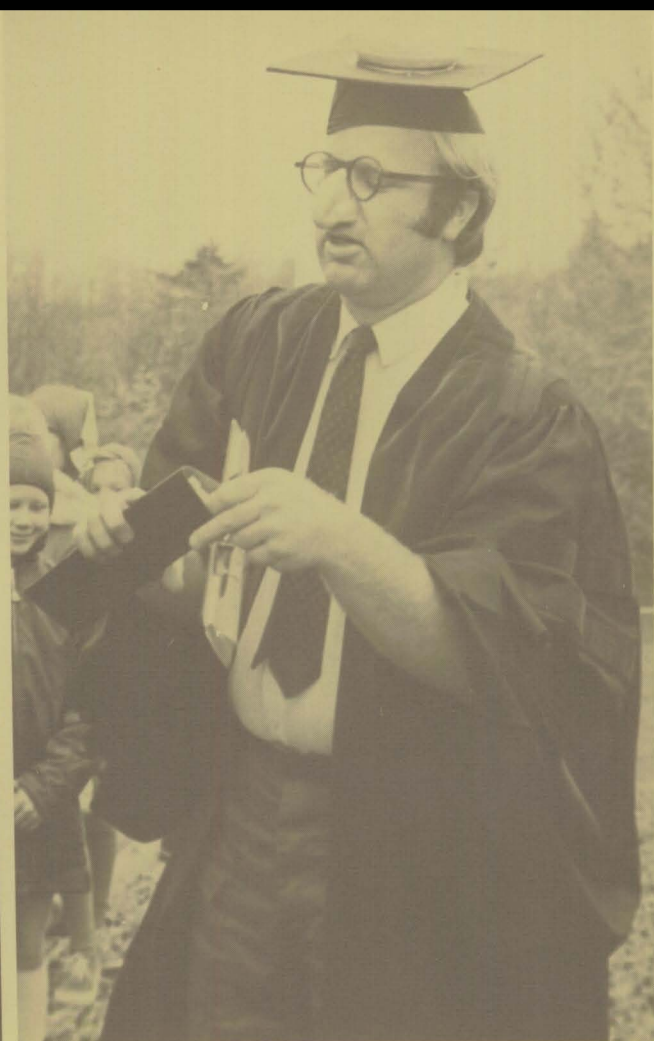

Heaven and earth are ruthless;  
They see the ten thousand things as dummies.  
The wise are ruthless;  
They see the people as dummies.

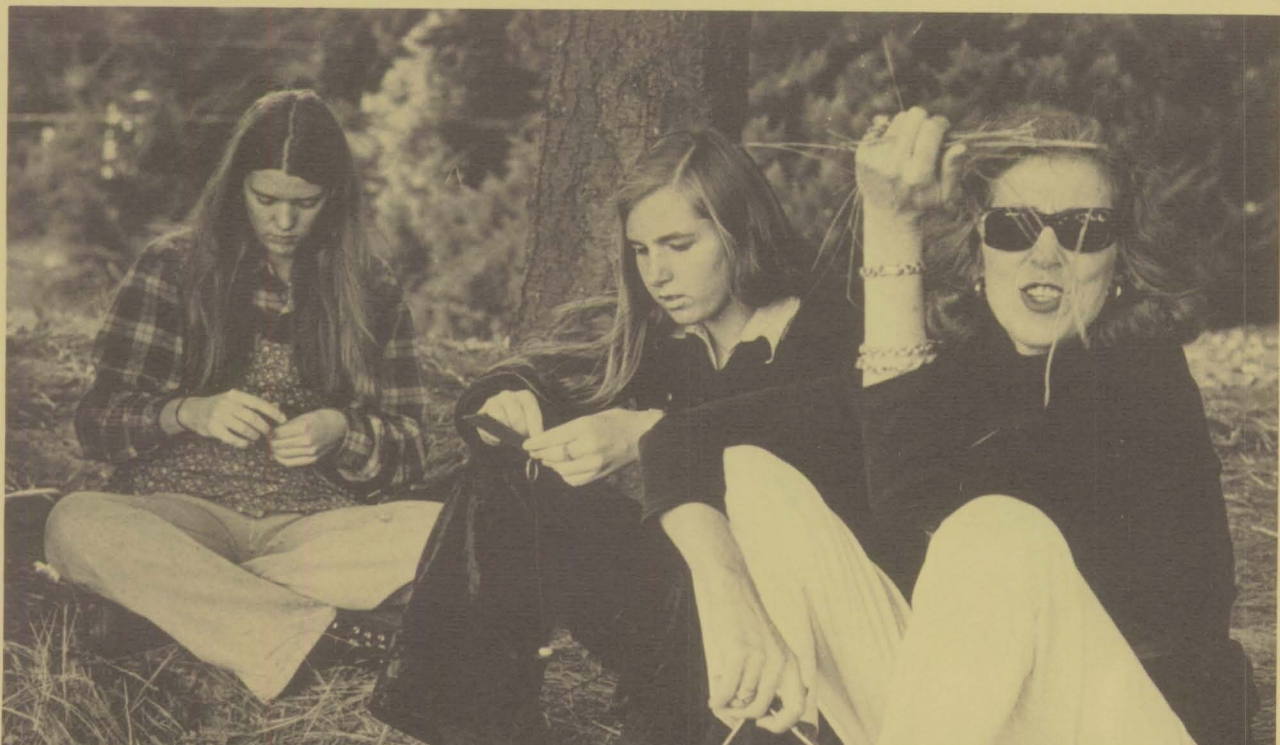

The space between heaven and earth is like a  
bellows.  
The shape changes but not the form;  
The more it moves, the more it yields.  
More words count less.  
Hold fast to the center.

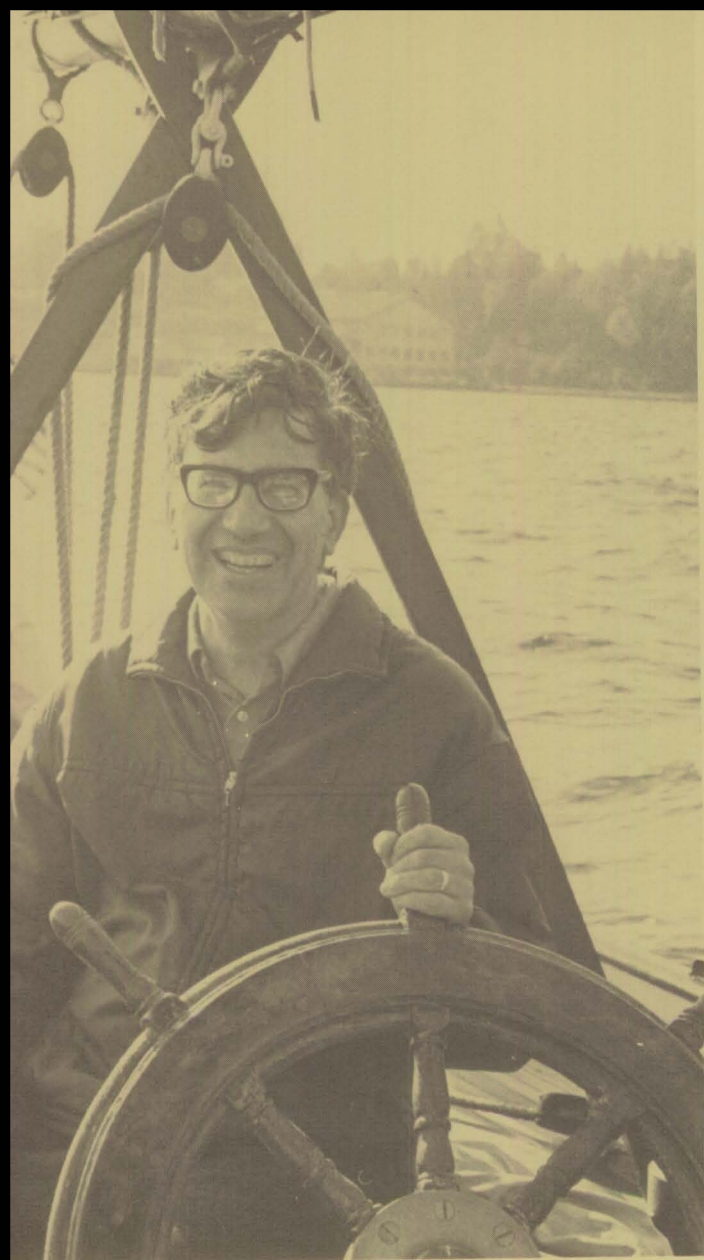

Heaven and earth last forever.  
Why do heaven and earth last forever?  
They are unborn,  
So ever living.  
The sage stays behind, thus he is ahead.  
He is detached, thus at one with all.  
Through selfless action, he attains fulfillment.

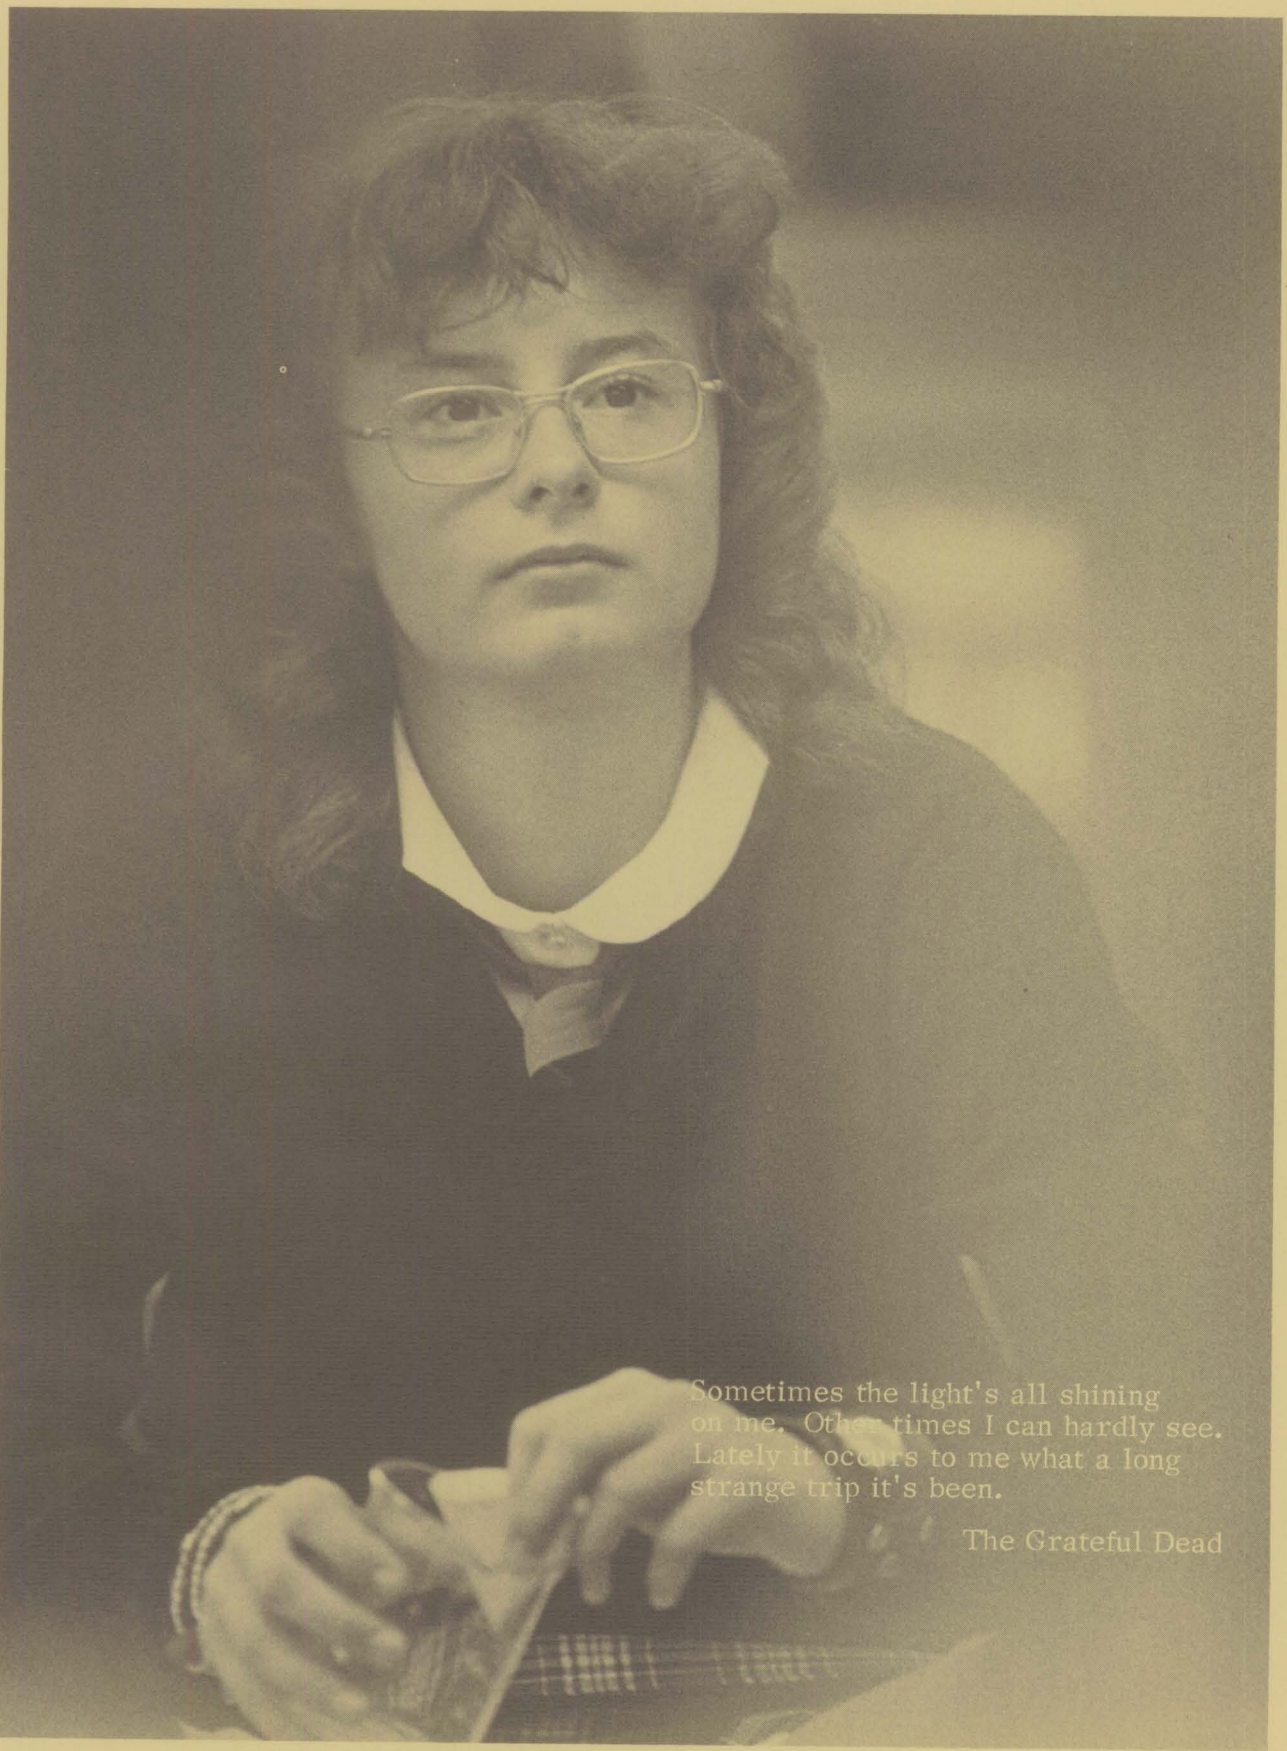

"Your smile beams like sunlight  
on a gull's wings  
and the leaves dance in place  
after you  
take my hand and hold it  
as you would a flower  
take care with my heart, oh darling  
she's made of glass."

Donovan

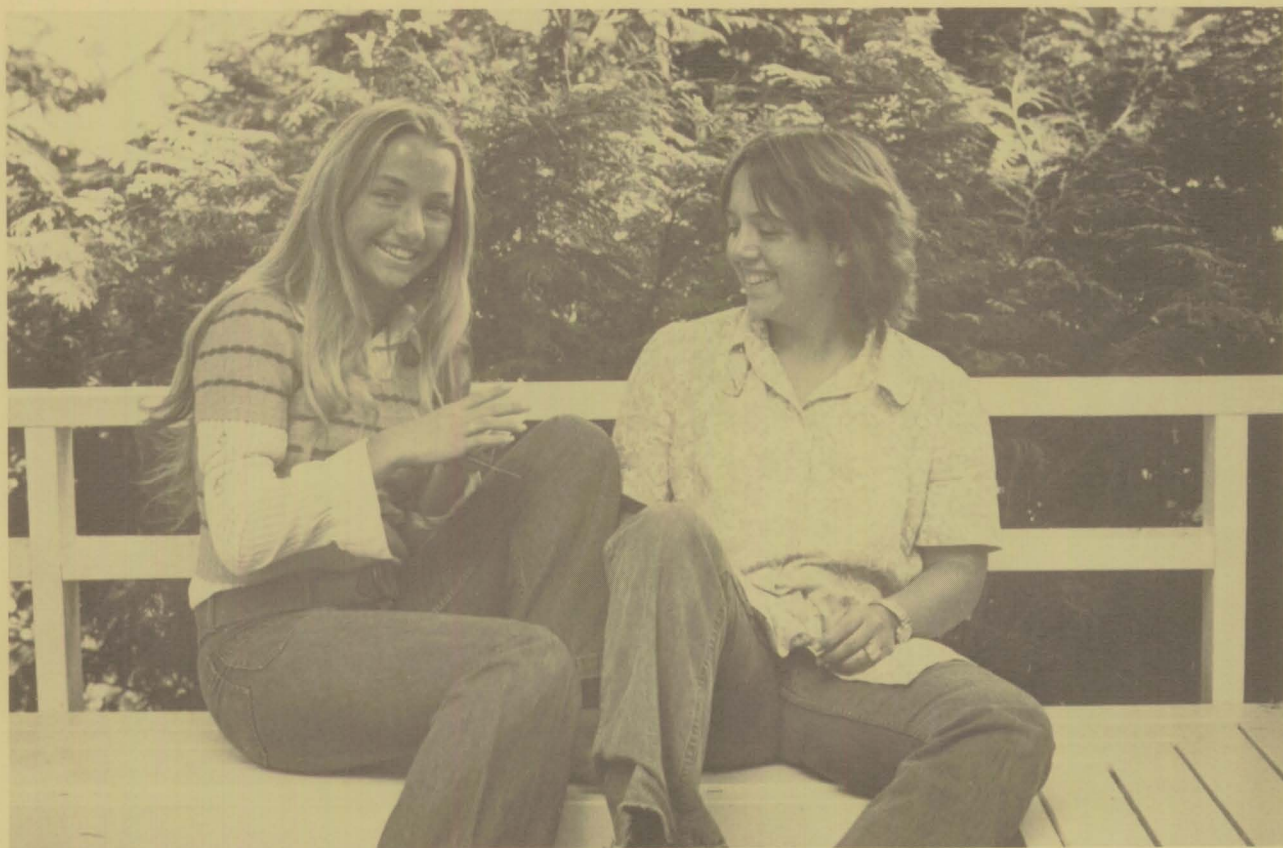

Sometimes the light's all shining  
on me. Other times I can hardly see.  
Lately it occurs to me what a long  
strange trip it's been.

The Grateful Dead

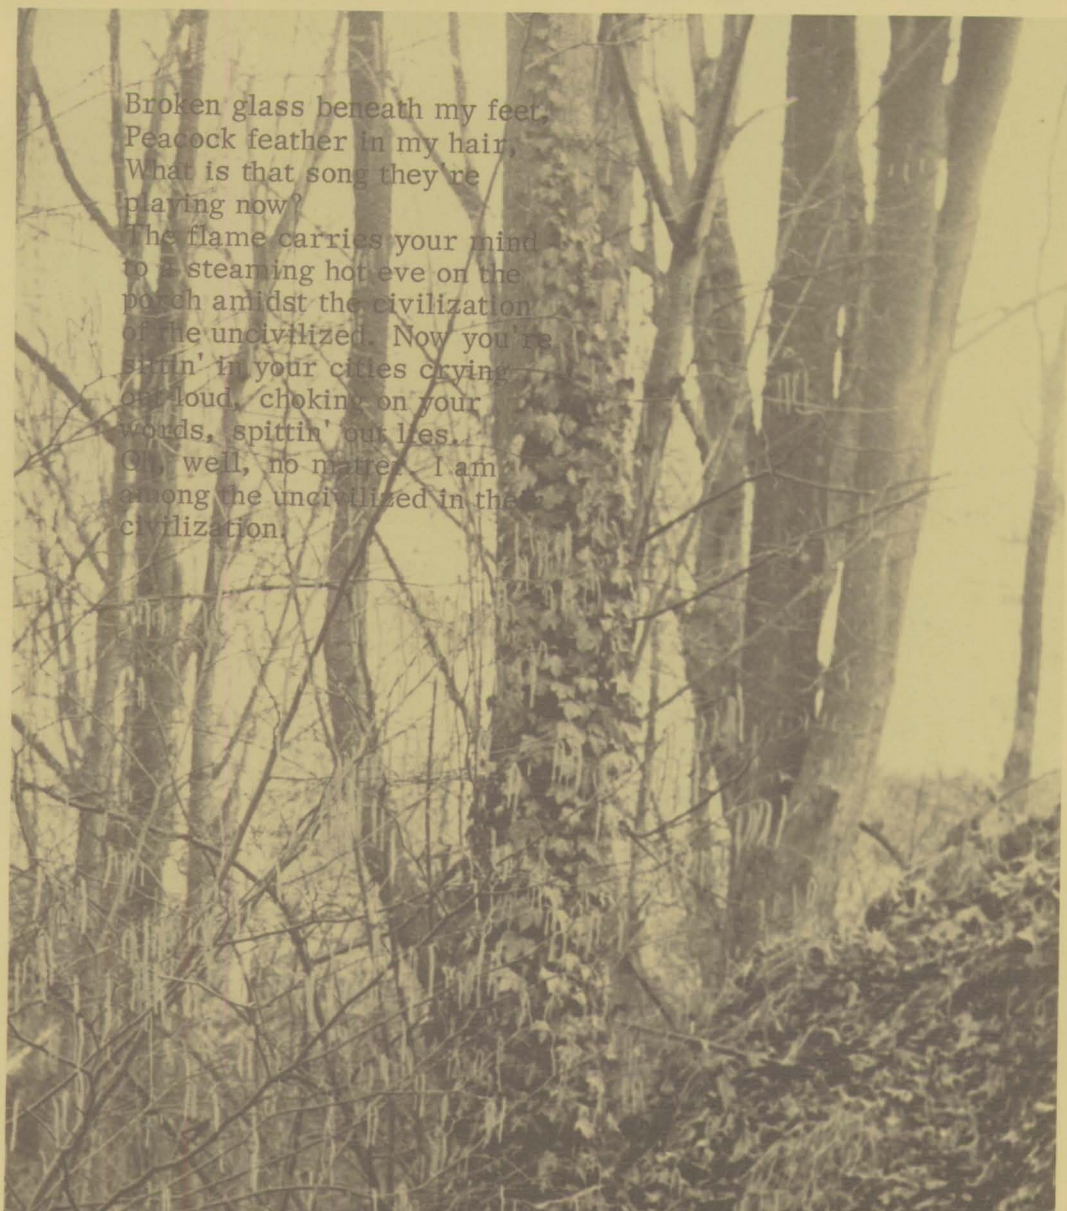

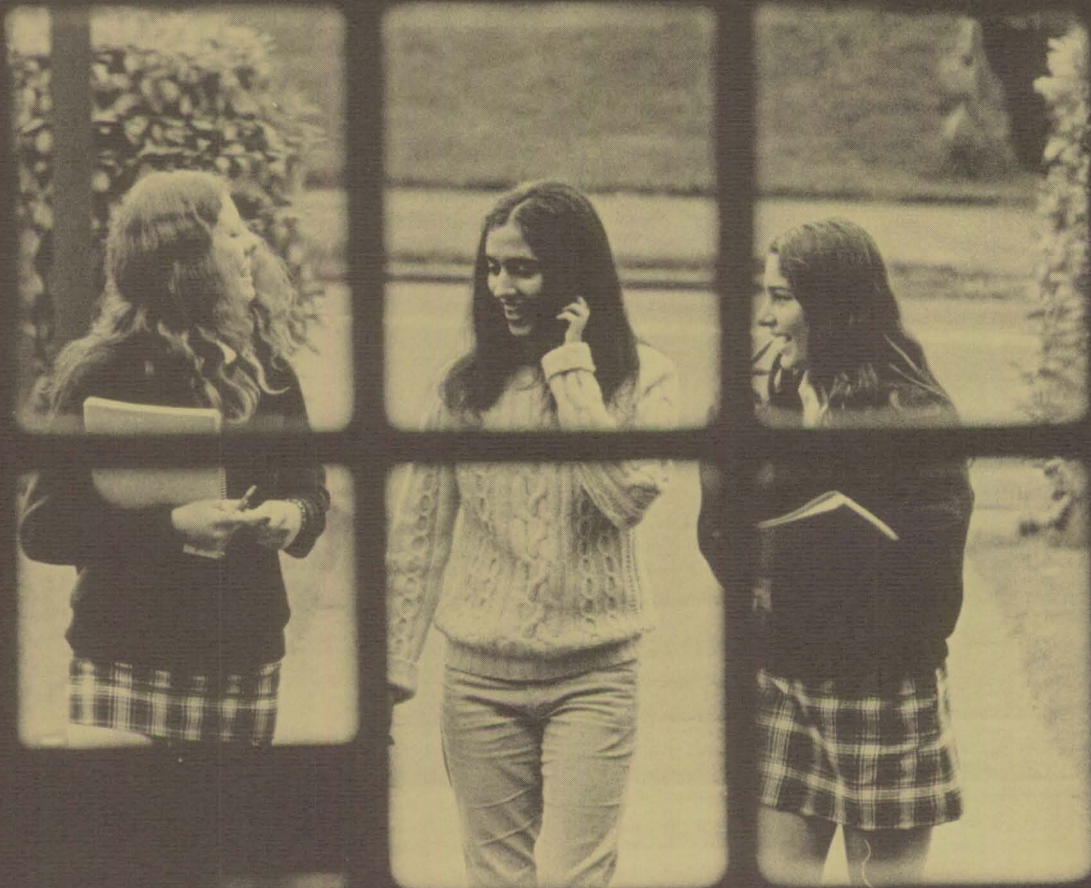

Broken glass beneath my feet,  
Peacock feather in my hair,  
What is that song they're  
playing now?

The flame carries your mind  
to a steaming hot eve on the  
porch amidst the civilization  
of the uncivilized. Now you're  
sittin' in your cities crying  
out loud, choking on your  
words, spittin' out lies.

Oh, well, no matter. I am  
among the uncivilized in this  
civilization.

NOT BEEF - POT - PIE ANOTHER  
TIME THIS WEEK, MISS JACK!

"Some believe there is nothing one man or one woman can do against the enormous array of the world's ills. Yet many of the world's great movements, of thought and action have followed from the work of a single man. A young monk began the Protestant reformation, a young general extended an empire from Macedonia to the borders of the earth, and a young woman reclaimed the territory of France. It was a young Italian explorer who discovered the New World, and the thirty-two-year-old Thomas Jefferson who proclaimed that all men are created equal.

## FROM A FRIEND

Children will draw pictures with everything in them. . . houses and trees and people and animals . . . and the sun AND the moon. Grown-up says, "That's a nice picture, Honey, but you put the moon and the sun in the sky at the same time and that isn't right." But the child IS right! The sun and the moon ARE in the sky at the same time.

- Buckminster Fuller
